- Kiefer Built
- Nortech Systems
- Stellar Industries

Students:

The Career Fair is a chance for students to talk to businesses, to find out what type of jobs are offered, what they need to know to get that job, and what pay can be expected. In addition, students will have an opportunity to discuss post-secondary education with NIACC staff.

Businesses:

The Career Fair is a chance for businesses to talk to students, to meet future employees, inform them about internships, job training, summer jobs and jobs available right after high school and college graduations.

Sponsored By:

HANCOCK COUNTY FOUNDATION

Community partner

**Speaker:
Milton Creagh**

Nationally known speaker and author, Milton Creagh, will address the students in his no-nonsense way about work ethic, and what employers expect from their employees. He makes a big impact with his straight talk about important challenges facing young people.

He will also speak to parents on the evening of April 10th. In his book "Nobody Wants Your Child" he writes "Parenting in the new millennium! We spend more money on our kids than ever before. They tend to do less work around the house than ever.

Add to that the fact that they have more freedom of movement and we end up with a situation where jobs that historically went to young people are being given to senior citizens and even the mentally challenged."

Milton is the former host of the National PBS television series, Parenting Works!

For Businesses:

This is a chance for you to sell your company to the workforce of tomorrow. Tell them about your technical jobs, your right-out-high-school jobs, what they will need to know, what they will do, and how much they can expect to be paid.

Business Extras:

Students can talk to area businesses about programs they may offer like summer employment, job training, tuition reimbursement, internships or job shadowing. These are all tools available to get inside a company and see what they have to offer, as well as to find how they fit with a student's interests".

▶ **To Participate:**

- 1.) Select a shift time for your school to attend
- 2.) How many students will attend?
- 3.) Prep the students with "assignment" provided by the career fair
- 4.) Encourage students to use this opportunity to its fullest
- 5.) Send RSVP and information to:
