

## **DOT approves project grants for Hancock, Winnebago counties**

08/14/2007

MASON CITY — The Iowa Transportation Commission approved RISE grants for two North Iowa projects today.

The grants were:

\$270,000 to Hancock County for a project east of Garner providing access to the proposed new site of Harvest Biofuels LLC ethanol plant.

\$150,000 to Winnebago County just north of county roads A-42 and R-34 providing access to the Christensen Farms planned feed mill/distribution facility.

RISE stands for “Revitalizing Iowa’s Sound Economy,” a Department of Transportation program that provides funds for local projects.
